

## BROADBAND WORLD FORUM – FROM CONNECTION TO REDISTRIBUTION, SAGEMCOM OFFERS A RANGE OF GATEWAYS ENABLING END-TO-END GIGABIT ACCESS

21 October 2013

### AT THE BROADBAND WORLD FORUM, SAGEMCOM PRESENTS A RANGE OF RESIDENTIAL GATEWAYS ENABLING END-TO-END GIGABIT ACCESS WITH SERVICES AT THE CUTTING-EDGE OF TECHNOLOGY

The new Sagemcom residential gateways provide very high speed access suitable to the network of the service provider (ADSL2+/VDSL2 compatible with G.Vector & bonding, LTE, PON or DOCSIS), and several wireless connections, WiFi, including the latest "802.11ac" standard offering wider coverage and reliable use.

These gateways integrate a new generation of highly powerful processors as well as a Sagemcom in-house middleware suite which is open, and fully modular.

Incorporating these advanced technologies allows accessing to services distributed from end-to-end with gigabyte-plus bandwidth. This also enables to transcode and distribute live or recorded video content on all screens in the home (TV, tablet, smartphone, PC, etc.).

Thanks to this comprehensive range of next generation products provided by Sagemcom, operators can offer the latest innovations available on the market, combining high performance, new services and high level of scalability.

*"We work on the engineering and the design of our products by integrating the best of new technologies, meeting our customers' needs. The diversity of our range allows us to propose increasingly comprehensive and entirely customizable products. Thanks to the diversity of connection means, speeds above 1 Gigabit and the integration of latest-generation software, the Sagemcom residential gateways provide concrete solutions to the needs of the home ultra-connectivity, for an enhanced user experience,"* says Ahmed Selmani, Deputy CEO of Sagemcom Broadband SAS.

#### About Sagemcom

A French high-tech group of international dimensions, Sagemcom operates on the broadband (digital home, set-top boxes, Internet routers, telephony and multimedia terminals), telecoms and energy (smartgrid and energy management) and document management (printing terminals, software and solutions, digital production workflow) markets.

With a revenue of around 1.3 billion euros, Sagemcom employs 4,600 people on five continents; currently a European leader on most of its key markets, Sagemcom aims to become a world leader in communicating terminals with high added value.

Sagemcom has provided support for its clients for the last 25 years by preparing and implementing their energy management projects, and by deploying secure and sustainable metering solutions, from meters to information systems.
