

SAGEMCOM SELECTED BY GRDF FOR THE SUPPLY OF MORE THAN 4.7 MILLION GAZPAR METERS, RADIO MODULES AND CONCENTRATORS

March 3rd 2014

FOLLOWING AN RFP FOR THE “GAZPAR PROJECT”, SAGEMCOM WILL SUPPLY 4.7 MILLION METERS, RADIO MODULES AND CONCENTRATORS (2.5 MILLION UNITS IN A FIRST BINDING PHASE).

Sagemcom will become one of the main suppliers of equipment for the end-to-end gas metering solution in France.

These smart meters will be manufactured in France. The plant is based on an ecosystem which is fully suitable to manufacture and integrate large series of smart meters. 250 employees and engineers, located in Sagemcom's Rueil-Malmaison headquarters, contribute daily to the research & development, design and marketing of meters, data concentrators and management software for Electricity, Gas and Water.

"We are particularly proud that GrDF selected Sagemcom. We consider that this decision highlights Sagemcom's ability to meet customers' expectations by providing customised products that have been designed to meet the customer requirements and to be mass-produced. With Gazpar, we will actively contribute to the development of the French energy business. Thanks to our ability to manage such projects from the design phase up to the manufacturing, we are able to propose worldwide innovative and effective solutions", said Eric Rieul, Deputy Managing Director of Sagemcom Energy & Telecom.

Sagemcom, based in Rueil-Malmaison, and controlled by its employees at 30%, is a French group, particularly active in the Energy and Telecommunications market, designing and proposing communication terminals and systems.

About Sagemcom

A French high-tech group of international dimensions, Sagemcom operates on the broadband (digital home, set-top boxes, Internet routers, telephony and multimedia terminals), telecoms and energy (smartgrid and energy management) and document management (printing terminals, software and solutions, digital production workflow) markets.

With a revenue of around 1.3 billion euros, Sagemcom employs 4,600 people on five continents; currently a European leader on most of its key markets, Sagemcom aims to become a world leader in communicating terminals with high added value.

Sagemcom has provided support for its clients for the last 25 years by preparing and implementing their energy management projects, and by deploying secure and sustainable metering solutions, from meters to information systems.
