

AT THE 2014 BROADBAND WORLD FORUM,
SAGEMCOM PRESENTS ITS NEW RANGE OF
HOME GATEWAYS AND, SWAN™, ITS
MODULAR SOFTWARE SUITE.

October 2014

BASED ON MORE THAN 12 YEARS' EXPERIENCE IN THE BROADBAND TERMINALS, SAGEMCOM IS PLEASED TO ANNOUNCE ITS RENAMED FULL FEATURE SOFTWARE, MATURED OVER YEARS IN MULTIPLE OPERATORS ENVIRONMENT, SAGEMCOM SWAN™.

Sagemcom Swan™ is a comprehensive software suite available on all platforms, all segments, and all access technologies (DSL, DOCSIS, GPON, LTE) of Sagemcom home gateways.

Besides all features for a triple play access gateway, the Sagemcom Swan™ software suite embeds exclusive features of a smart media center, and InTwo, Sagemcom smart home solution.

Swan™ modular architecture allows easy third parties application integration for operator to easily differentiate their Graphical User Interface, Web services or even new features developed over Swan™ SDK.

Ahmed Selmani, Deputy CEO of Sagemcom Broadband comments: *"With this high end software suite Sagemcom confirms its key partner position for its customers. Indeed, Swan™ offers a scalable solution to enrich their future services, new features being always on the way"*.

Sagemcom will also demonstrate at the BBWF its new range of home gateways integrating G.FAST, GPON, DOCSIS 24*8 and 32*8, and LTE.

Join us on Sagemcom booth to discover more in details all the benefits you could get from Sagemcom Swan™.

About Sagemcom

A French high-tech group of international dimensions, Sagemcom operates on the broadband (digital home, set-top boxes, Internet routers, telephony and multimedia terminals), telecoms and energy (smartgrid and energy management) and retail.

With a revenue of around 1.3 billion euros, Sagemcom employs 4,600 people on five continents; currently a European leader on most of its key markets, Sagemcom aims to become a world leader in communicating terminals with high added value.
