XMediusFAX[®] 7.5 software now rated “Avaya Compliant”

Sagemcom’s XMediusFAX[®] 7.5 software has been successfully tested for compatibility with Avaya IP Office 9.0, Avaya Aura[®] Session Manager 6.3 and Avaya Aura[®] Communication Manager 6.3.

MONTREAL, Quebec – March XX, 2014 - Sagemcom, a pioneer in advanced fax server solutions for IP networks announced today that XMediusFAX[®] 7.5 is now compliant with key communications and collaboration solutions from Avaya Inc., a global provider of business collaboration and communication software and services.

XMediusFAX helps businesses leverage their IP network and IP telephony services to securely and easily transmit vital business communications such as purchase orders, records, reports and confidential documents.

XMediusFAX provides reliable fax service to Small to Midsized, as well as Large Enterprises. The application is now successfully compliance-tested by Avaya for compatibility with Avaya IP Office 9.0, Avaya Aura[®] Session Manager 6.3 and Avaya Aura[®] Communication Manager 6.3 using SIP trunks and the T.38 fax protocol between XMediusFAX and the Avaya SIP infrastructure. Testing for G.711 fax pass through was also successfully conducted.

Sagemcom is a Technology Partner in the Avaya DevConnect program — an initiative to develop, market and sell innovative third-party products that interoperate with Avaya technology and extend the value of a company’s investment in its network. As a Technology Partner, Sagemcom is eligible to submit products for compliance testing by the Avaya Solution Interoperability and Test Lab. There, a team of Avaya engineers develops a comprehensive test plan for each application to verify whether it is Avaya compatible. Doing so enables businesses to confidently add best-in-class capabilities to their network without having to replace their existing infrastructure—speeding deployment of new applications and reducing both network complexity and implementation costs.

QUOTES

“The successful compliance testing of XMediusFAX with multiple Avaya business solutions reinforces our commitment to provide reliable interoperability to all organizations regardless of their size. We are happy to expand our service offering to meet the need of Avaya customers.”

--Jean Champagne, General Manager, Sagemcom Canada

“Sagemcom helps ensure that Avaya customers have access to affordable, yet high-capability faxing solutions regardless of the organization size and needs. Fax-over-IP (FoIP) is a vital component in unified communications and we are pleased that XMediusFAX has successfully completed compliance testing with IP Office and Avaya Aura.”

--Eric Rossman, Vice President, Developer Relations, Avaya

ABOUT SAGEMCOM

A French high-tech group of international dimensions, Sagemcom operates on the broadband (digital home, set-top boxes, Internet routers, telephony and multimedia terminals), telecoms and energy (smartgrid and energy management) and document management (printing terminals, software and solutions, digital production workflow) markets.

With revenue of around 1.3 billion euros, Sagemcom employs 4,600 people on five continents; currently a European leader on most of its key markets, Sagemcom aims to become a world leader in communicating terminals with high added value.

Sagemcom has provided support for its clients for the last 25 years by preparing and implementing their energy management projects, and by deploying secure and sustainable metering solutions, from meters to information systems.
