

SAGEMCOM, ONE OF THE WORLD'S LEADING SMART METERING SOLUTION SUPPLIER, HAS JOINED THE OMS-GROUP® AS AN ACTIVE MEMBER

July 18th 2016

SAGEMCOM IS PLEASED TO ANNOUNCE ITS MEMBERSHIP TO THE OPEN METERING SYSTEM GROUP (OMS-GROUP), AS AN ACTIVE MEMBER TO ENSURE THE GLOBAL SUCCESS OF THIS STANDARDIZATION.

Sagemcom with strong technical background in smart grid infrastructure will be participating to develop and promote this open and patent-free smart metering solution standard for electricity, gas, thermal energy, water and building automation markets.

The OMS is the only system specification across Europe which integrates all applications within a smart metering and multi-energies into one system definition. Sagemcom is involved in the development of multi-energies meters and its motivation in supporting such a specification is to guarantee a future-proof communication standard which would be interoperable among all meter suppliers. Furthermore, the OMS-Group's certification programs will also secure interoperability among various meter manufacturers which are belonging to the various applications.

"We are pleased to participate by sharing and offering more high-profile international experts for the OMS-Group", as stated by Mr. Kaveh Razazian, CTO of Energy Department. "Participation of Sagemcom along with experts from various industries will result in development of more effective and mature specifications in smart metering/grids and smart gateways promoted by OMS-Group. This will lead to new applications in the field of multi-energies meters with greater efficiency."

About OMS-Group

Since 2007, the OMS-Group is a 54 members strong interest group of companies from eleven European countries and China. With the Open Metering System (OMS) specification, the industry group has developed an open, multi-vendor, interoperable communication standard for electricity, gas, thermal energy, and water meters, as well as submetering. OMS is based on the EN 13757-x standard. For more information on the OMS standard and the OMS-Group, refer to www.oms-group.org

About Sagemcom

A French high-tech group of international dimensions, Sagemcom operates on the broadband (digital home, set-top boxes, Internet routers, telephony and multimedia terminals), smart city (smart meter, smart grid, smart infra, smart sites and smart services), and Internet of Things markets.

With revenue of around 1.3 billion euros, Sagemcom employs 4000 people on five continents and ships every year more than 23 million terminals. Sagemcom aims to remain a world leader in communicating terminals with high added value.

Sagemcom has provided support for its clients for the last 25 years by preparing and implementing their energy management projects, and by deploying secure and sustainable metering solutions, from meters to information systems
