

THE CABLE SHOW 2014: SAGEMCOM UNVEILS KEY INNOVATIONS

April 29th 2014

4K UHD, DOCSIS 3.0 24X8 CHANNELS CAPABILITY, 11AC 4X4 AND CAT-IQ, SAGEMCOM UNVEILS KEY INNOVATIONS IN LOS ANGELES.

Sagemcom will showcase a full range of DOCSIS 3.0 gateways ensuring end-to-end 1 Gbps services, with up to 24x8 channels capability, a cutting edge Dual Band Dual Concurrent 802.11ac Wi-Fi embedding a 4x4 antenna design with MU-MIMO technology, as well as MOCA2.0 connectivity.

These brand new features will enrich and smoothen the customer experience in a multi-client environment. Wireless transmission, not only for data but also for all new video usages, will now be available in the MSO deployment.

Sagemcom will also demonstrate one of the world's most advanced Set-Top Box, supporting HEVC 4K UHD technology. This Set-Top Box enables operators to deliver a superior multi-screen, multi-device viewing experience to their subscribers.

On top of video distribution and full Giga-bit broadband access, Sagemcom also confirms its leadership on HD voice, with CAT-iq US certified handsets, commercially available for deployment on the North American market this quarter.

About Sagemcom

A French high-tech group of international dimensions, Sagemcom operates on the broadband (digital home, set-top boxes, Internet routers, telephony and multimedia terminals), telecoms and energy (smartgrid and energy management) and retail.

With a revenue of around 1.3 billion euros, Sagemcom employs 4,600 people on five continents; currently a European leader on most of its key markets, Sagemcom aims to become a world leader in communicating terminals with high added value.
