

## Sagemcom's SICONIA AMI2.0 electricity meter family completes Measurement Canada Certification

*Dallas, 8<sup>th</sup> December 2025*

Sagemcom, a global leader in smart Electricity, Water and GAS metering solutions, announced that its latest generation of Siconia electricity meters (2S, 12S and 25S) have received type approval from **Measurement Canada**, confirming compliance with Canadian standards for metering accuracy and reliability. With this certification, Siconia meters can be adopted by utilities across Canada for their AMI deployments.

The Siconia meter platform provides extensive modularity in **communication technologies** and **integrated Grid Edge Intelligence**. It is engineered in accordance with leading industry standards, enabling seamless interoperability with a broad ecosystem of technology partners.

### Key Features and Benefits:

- **AMI 2.0 Ready:** Enables AI-powered advanced data analytics, remote configuration, and dynamic tariff management.
- **DER Situational Awareness:** Detecting and managing resources like solar PV, and EV chargers.
- **Enhanced Operational Efficiency:** Real-time monitoring and remote capabilities reduce field visits and operational costs.
- **Future-Proof Design:** Scalable architecture to support evolving utility needs and regulatory requirements.
- **Higher safety for the utilities:** Prevent DER backfeed on power lines during and after outages, and mitigate power quality degradation caused by asynchronous AC generators

"Achieving Measurement Canada certification is a significant milestone for Sagemcom and our utility partners," said Kamal Jiddane, Managing Director at Sagemcom. "Our advanced smart meters empower utilities to deliver safe, reliable, and efficient energy services while unlocking the full potential of AMI 2.0. With diverse connectivity options, utilities can confidently deploy solutions that meet today's demands and prepare for tomorrow's challenges."
